THE BENEFITS OF SANA SAAS

We've been hard at work developing Sana Commerce Software as a Service (Sana SaaS) for years now, and we're excited to finally be able to launch it in 2018.

So what exactly does Sana SaaS entail, why is it such a great improvement, and how can you better serve your customers by implementing it? We're covering that and more in this document. When you're ready for more details, please feel free to get in touch!

NEW WITH SANA SAAS	THE BENEFITS FOR YOU AND YOUR CUSTOMERS
Automatic upgrades: always enjoy the latest version	With Sana Saas, you get new features and add-ons on a regular basis, so your web store is ready for new developments and changes in the e-commerce industry. That means no more additional upgrade costs or time investments, because Sana takes care of your upgrades.
Wide range of new features	There are numerous great features waiting for you when you upgrade from an older Sana version to Sana SaaS!
Always have the latest security fixes	Your installation will always be up to date and protected against vulnerabilities like downtime, data loss and hacks.
One simple monthly fee	The new monthly subscription includes your license, hosting and support costs. Sana will take care of everything.
Install add-ons from Sana Admin	We're looking forward to releasing the ability to install add-ons from the Sana Admin in Q3 of 2018. This means you'll have the power to add new functionality by yourself.
Performance improvements	Sana SaaS allows you to enjoy performance improvement releases for your Sana SaaS web store (e.g. SEO and page speed) as soon as they become available.
Daily georedundant backups	Daily backups of your installation will be created and safely stored in different locations around the world.
Installations runs in Microsoft Azure	Sana Saas installations run in a highly secure, high-performing cloud environment based on Microsoft Azure.
